ARTICLE VI, Compensation

§ 124-9. Plan defined.

The compensation plan shall consist of the rates of compensation prescribed for classes of positions in the classification plan established by this article with such amendments thereto as may be made from time to time.

§ 124-10. Definitions for plan.

When used in this article, the following words, terms and phrases shall have the meanings herein ascribed to them:

COMPENSATION -- Any salary, wage, fee, allowance or other emolument paid to or consideration received by an employee for performing the duties and exercising the responsibilities of a City position and which is computed upon an annual basis.

COMPENSATION SCHEDULE -- A group of rates of compensation consisting of minimum and maximum rates and one or more intermediate rates herein called "increments."

EMPLOYEE -- Any person temporarily or permanently in a City position.

GRADE -- A group of positions, all of which fall within a common minimum and maximum compensation range as set forth in schedules adopted from time to time by the City Council.

POSITION -- A specific City office or employment, whether occupied or vacant, calling for the performance of certain duties and the carrying of certain responsibilities by one individual either on a full-time or part-time basis.

STANDARD COMPENSATION SCHEDULE TABLE -- A series of compensation schedules applicable to the several grades of positions in the City service under the terms and conditions hereinafter prescribed in this article.

STEP -- The addition of one or more increments to the minimum compensation for the particular position affected.

§ 124-11. Conformance with schedules.

The compensation plan shall be in accordance with schedules adopted and from time to time amended by the City Council. Said schedules shall be kept on file in the office of the Comptroller and the office of the City Clerk.

§ 124-12. Positions must be in schedules.

Only such positions as are specifically described in schedules adopted in accordance with this article shall be deemed as included within the compensation plan established herein.

§ 124-13. Compensation to conform to schedules.

Except as otherwise specifically provided, the annual compensation of every position in the City service hereafter created, and of every position now in the City service which shall hereafter become vacant, or the compensation for which shall hereafter be changed, shall be fixed and determined in accordance with the compensation schedules provided for by this article and further in accordance with the provisions of this article relating thereto.

§ 124-14. Installation rules.

The following compensation plan installation rules are hereby approved and adopted:

- A. Employees below the minimum of the grade. If the present salary of an employee is below the minimum of the grade to which his or her position is allocated, he or she shall be raised to the minimum of the grade, provided this raise is at least one full increment of the grade. If it is not, the employee shall be raised to the first-year level.
- B. Employees between the minimum and maximum of the grade. The installation rules contained herein shall apply to employees between the minimum and maximum of the grade. In no event shall the salary of an employee be raised beyond the maximum of the grade.
 - (1) If the present salary of an employee is between steps of the grade to which his or her position is allocated, he or she shall be raised to the next highest step of the grade and shall also receive one full increment.
 - (2) If the present salary of an employee coincides with a step of the grade to which his or her position is allocated, he or she shall be raised to the next highest step of the grade.
- C. Employees above the maximum of the grade. If the present salary of an employee is beyond the maximum of the grade to which his or her position is allocated, he or she shall continue at that rate during the period of his or her incumbency, except in the event of general service-wide increases or reductions, and shall not be entitled to any increments unless he or she becomes eligible for longevity step increments.

- D. Part-time employees. The salary schedule provides rates for full-time employment only. When a person is employed on a less than full-time basis, a determination shall be made as to the percentage of the full workweek that the employee is required to devote to his or her position. The employee then shall be paid that percentage of the annual rate as his or her salary for the part-time employment.
- E. Certain employees ineligible for salary increase. As a result of the classification plan, certain positions were reclassified downward. A few of the incumbents of such positions hold permanent status in a higher level title than the reclassified title of the position. These employees are to be paid the salary received immediately prior to the installation of this salary plan. These employees will not be eligible for salary increases (other than general service-wide increases) unless their present salary is below the maximum of the grade to which their reclassified title has been allocated. In this event, the employee's salary shall be determined in accordance with Subsection B of this section.

§ 124-15. Rules governing administration of plan.

The following compensation plan administration rules are adopted and approved, and such provisions shall apply equally to temporary or provisional employees as well as to those with permanent status:

- A. New appointees. A new appointee shall be paid the minimum rate of pay for the position to which he or she is appointed unless the department head shall certify to the City Council that it is impracticable to recruit at the minimum salary. The City Council then may authorize recruitment above the minimum of the salary grade for such position. When an appointment is made above the minimum of the grade, all employees in the same title receiving less than the new recruitment rate shall have their salaries brought up to the new rate of pay.
- B. Promotions. The salaries of promoted employees shall be raised to the nearest step of the new grade which provides an increase equal to at least 1/2 the increment of the new grade.
- C. Reallocation downward. When an employee's position is reallocated to a lower salary grade, the employee shall be permitted to continue at his or her present rate of pay during the period of incumbency (except in event of general service-wide reductions) but shall not be eligible for a salary increase, except that if his or her present rate of pay is below the maximum of the lower grade, he or she shall be eligible to receive increments in the lower grade until the maximum of that grade is reached.
- D. Reinstatements. A reinstated employee shall be paid at a salary rate within the range for the position to which he or she is reinstated. His or her salary upon reinstatement shall not exceed the salary received at the time he or she vacated his or her position, unless that previous salary is below the minimum for the position to which reinstated. Under this circumstance the employee shall receive the minimum of the grade.
- E. Part-time employment. When employment is on a part-time basis, employees shall be paid a proportionate rate of the annual salary based on the amount of time actually employed. Increments for part-time employees shall also be proportionate to the annual increment for the grade.
- F. Hourly employment. Employees paid on an hourly basis shall be paid in accordance with the hourly salary schedule and on the basis of the number of hours actually employed.
- G. Temporary assignment to higher grade position. Employees assigned for a temporary or limited period exceeding three consecutive calendar months to a higher grade position due to the illness, injury or a bona fide leave of absence of the holder of such higher grade position shall, after having worked in said higher grade position for three consecutive calendar months, receive the minimum of

the higher grade for the duration of such assignment unless the present rate of pay exceeds such minimum. Under such circumstances, the employee will be compensated in accordance with the provisions of Subsection B of this section.

- H. Allowances. The rate of pay prescribed in the salary schedule represents the gross salary earned. Employees receiving maintenance in connection with their positions shall have charges for the various items of maintenance received deducted from their gross salaries.
- I. Annual increments. Each employee shall be eligible for an annual increment up to the maximum of the grade in which his or her position is allocated, provided that the increment is recommended by the department head. Before such recommendation is made, the service of the employee should be reviewed by his or her department head with attention given to the efficiency with which the employee has performed his or her duties, as well as his or her attendance record and all other factors having an effect on his or her work record. No employee shall be eligible for more than one increment increase in any fiscal year. Employees who enter the City service between January 1 and June 30 of a particular year and have served continuously in their positions will be eligible to receive an annual increment on the following January 1. Employees who enter the service between July 1 and December 31 shall be eligible for advancement to the first year step on the following July 1. Persons who are advanced to the first year step on July 1 then shall be eligible for a salary increment the following January 1.
- J. Enforcement. It shall be the duty of the Comptroller of the City to enforce the rules of the salary plan. It shall be the duty of the Civil Service Commission and all City department heads, officers, and employees to cooperate in enforcing these rules.
- K. Review of plan. The compensation plan shall be reviewed annually by the City Council and Board of Estimate and Apportionment to determine whether adjustments are necessary.

§ 124-16. Overtime compensation.

- A. Generally. Except as otherwise expressly provided in an agreement pursuant to Article 14 of the Civil Service Law by and between the City and a duly recognized employee organization, all City employees shall be paid overtime compensation at time and 1/2 of the regular basic pay rate of employees, for all time such employee is required to such work in excess of his or her regular weekly established hours of employment, and double time on all holidays such employee is required to work. No such employee shall be paid overtime compensation unless such employee is requested to work overtime by the department head or his or her authorized representative. No such overtime compensation shall be paid to any officer of the City or to any department head of the City of Binghamton.
- B. Applicability to part-time, seasonal employees. The provisions set forth in Subsection A shall not apply to part-time or seasonal employees of said departments.
