Zoning Board of Appeals Application

Dear Applicant,

Please review the following memo regarding the planning approval process. It is recommended that applicants review the Zoning Ordinance to ensure compliance and to facilitate the application. The Ordinance may be viewed by on the City's Website, www.binghamton-ny.gov.

1. Prior to submitting an application it is recommended that the applicant attend a Tuesday afternoon pre-development meeting to discuss the project with City Staff. Applicants may schedule an appointment by calling the Planning Department at (607) 772-7028.
The purpose of the pre-development meeting is to address technical issues, to identify potential concerns, to consider other involved or interested agencies (e.g. Broome County Planning Department, NYSDOT, NYSDEC, other City Boards/Commissions, etc.) and to review information likely to be necessary to refer the application to the appropriate City Board or Commission.
2. The deadline for application submittal, including all required documentation, is the first Wednesday of each month. This will place your application on the following month's meeting agenda. The Zoning Board of Appeals meets the first Monday of each month at 5:15pm and the Planning Commission meets on the second Monday of each month at 5:15pm.
3. Once the application is received, a Planning Department staff member will be assigned to review the application material. The staff member will then contact the applicant to open communication and to answer any questions the applicant may have. Staff may request any additional information, material, or documentation as deemed necessary.
4. Once the staff member is satisfied that all material has been submitted, they will write a staff report including all relevant information necessary for review of the application. This will be delivered to board members approximately 10 days prior to the meeting. The staff report can be made available to the applicant upon request.
5. If the subject property is within 500 feet of a municipal boundary, a County or State road, a County or State park or recreation area, a State or County owned facility, or the right-of-way of any stream or drainage channel owned by the county or for which the county has established channel lines, then staff will file a 239 L, M, and N request with the Broome County Planning Department for comment. The County reserves the right to 30 days to respond to the request. The County's comments will be delivered to the applicant when they are received.
6. Approximately ten (10) days prior to a scheduled public hearing, Planning Department staff will execute legal notice. Staff will submit legal notice to the Press and Sun Bulletin, which will be published for one day in print 7 days prior to the public hearing. Staff will also mail all landowners within 200 feet of the subject parcel(s). Lastly, staff will prepare public notice signs. The applicant is responsible for paying all public notice fees and for posting the public notice sign on the property for 7 days prior to the public hearing.
7. At the public meeting, the applicant or their designee should appear to present information on the proposal and to answer any questions. This is not strictly required, however the City reserves the right to review or to table review of any application where the applicant is not in attendance.
8. A. Complete applications for the Zoning Board of Appeals will be set for immediate public hearing at the first available meeting.
B. Complete applications for the Planning Commission generally take two meetings to complete review. Some minor projects may be reviewed in one meeting.
9. Within ten (10) days of a final decision, the official decision letter will be filed with the City Clerk. Staff will then email and/or mail a copy of the official decision letter to the applicant.

Any questions may be directed to the Planning Department at (607) 772-7028.

Procedural Guidelines

Area Variances

In granting an area variance, the Zoning Board of Appeals must weigh the benefit to the applicant if the variance is granted against the detriment to the health, safety, and welfare of the neighborhood or community by such a grant. The following must also be considered:

- (a). **Undesirable change**: Whether an undesirable change will be produced in the character of the neighborhood, or whether a detriment to nearby properties will be created;
- (b). **Reasonable alternative**: Whether the Applicant can achieve his goals via a reasonable alternative that does not involve the necessity of an area variance;
- (c). **Substantial request**: Whether the variance requested is substantial;
- (d). **Physical and Environmental Conditions**: Whether the requested variance will have an adverse impact on the physical or environmental conditions in the neighborhood or district;
- (e). **Self-created hardship**: Whether the alleged difficulty was self-created, which consideration shall be relevant to the decision of the Zoning Board of Appeals, but shall not necessarily preclude the granting of the area variance.

Use Variances

In granting a use variance, the Zoning Board of Appeals must find the applicant has adequately demonstrated all of the following:

- (a). **Economic deprivation**: That under applicable zoning regulations, the applicant is deprived of all economic use or benefit from the property in question. Deprivation must be established by competent financial evidence;
- (b). **Unique circumstances**: That the alleged hardship for the property is unique and does not apply to a substantial portion of the district or neighborhood;
- (c). **Neighborhood character**: That granting the variance will be in harmony with the spirit and intent of this ordinance and will not alter the essential character or quality of the neighborhood, endanger public health or safety, or substantially diminish or impair property values in the neighborhood.
- (d). **Self-created hardship**: That the alleged hardship has not been self-created.

**** In granting a variance, the Zoning Board of Appeals shall grant the minimum variance that is deemed necessary and adequate. The Board should strive to preserve and protect the character of our neighborhoods as well as the health, safety, and welfare of our community at large****
