- A. Generally. All stores, hotels, shops, buildings, dwellings and structures of any kind within the City shall be regularly and conspicuously numbered, according to the present numerical division of lots, making due allowance for vacant lots at the same rate of subdivision. The owner or owners of any such store, hotel, shop, building, dwelling or structure shall place such numbers in a prominent place thereon.
- B. Expense, direction and control of numbering; notice to number; failure to obey notice. All numbering of buildings shall be done at the expense of the owners of the property, but under the direction and control of the Code Enforcement Office, which shall, when deemed expedient by that office, give notice in person or by mail to every owner or occupant of property to be numbered, to number the premises and the manner of doing the same, and if said owner or occupant neglects or refuses to obey such notice within 10 days thereafter, the person so neglecting or refusing to do so shall be guilty of a violation and shall be punished as provided in § 1-4 of this Code.

§ 200-3. Shed or fence restrictions.

The erection of a shed or fence in such a manner as unnecessarily to vex or annoy an adjoining proprietor or for the purpose of vexing or annoying such adjoining proprietor shall be unlawful.

- B. Notwithstanding Subsection A herein, in the event that the premises to be leased are deficient, but by the terms of leasing it is provided that said deficiencies would be corrected by way of repairs or renovations prior to occupancy, then the lease may be entered into by the City. However, prior to

occupancy of the premises under the lease, the inspections and certification set forth in Subsection A herein shall be made.

- C. In the event that the inspections prior to leasing under Subsection A or prior to occupancy under Subsection B above reveal any deficiencies in the premises, then the leasing or occupancy by the City of Binghamton as landlord or tenant shall not be effective unless said deficiencies are corrected.

 - (c) The enlargement, alteration, replacement or relocation of any building system; or

- C. Exemption not deemed authorization to perform noncompliant work. The exemption from the requirement to obtain a building permit for work in any category set forth in Subsection B of this

section shall not be deemed an authorization for work to be performed in violation of the Uniform Code or the Energy Code.

- D. Applications for building permits. Applications for a building permit shall be made in writing on a form provided by or otherwise acceptable to the Code Enforcement Officer. The application shall be signed by the owner of the property where the work is to be performed or an authorized agent of the owner. The application shall include such information as the Code Enforcement Officer deems sufficient to permit a determination by the Code Enforcement Officer that the intended work complies with all applicable requirements of the Uniform Code and the Energy Code. The application shall include or be accompanied by the following information and documentation:
- (1) A description of the proposed work;
 - (2) The Tax Map number and the street address of the premises where the work is to be performed;
 - (3) The occupancy classification of any affected building or structure;
 - (4) Where applicable, a statement of special inspections prepared in accordance with the provisions of the Uniform Code; and
 - (5) At least two sets of construction documents (drawings and/or specifications) which:
 - (a) Define the scope of the proposed work;
 - (b) Are prepared by a New York State registered architect or licensed professional engineer where so required by the Education Law;
 - (c) Indicate with sufficient clarity and detail the nature and extent of the work proposed;
 - (d) Substantiate that the proposed work will comply with the Uniform Code and the Energy Code; and

- E. Construction documents. Construction documents will not be accepted as part of an application for a building permit unless they satisfy the requirements set forth in Subsection D(5) of this section. Construction documents which are accepted as part of the application for a building permit shall be marked as accepted by the Code Enforcement Officer in writing or by stamp. One set of the accepted construction documents shall be retained by the Code Enforcement Officer, and one set of the accepted construction documents shall be returned to the applicant to be kept at the work site so as to be available for use by the Code Enforcement Personnel. However, the return of a set of accepted construction documents to the applicant shall not be construed as authorization to commence work, nor as an indication that a building permit will be issued. Work shall not be commenced until and unless a building permit is issued.
- F. Issuance of building permits. An application for a building permit shall be examined to ascertain whether the proposed work is in compliance with the applicable requirements of the Uniform Code and Energy Code. The Code Enforcement Officer shall issue a building permit if the proposed work is in compliance with the applicable requirements of the Uniform Code and Energy Code.
- G. Building permits to be displayed. Building permits shall be visibly displayed at the work site and shall remain visible until the authorized work has been completed.
- H. Work to be in accordance with construction documents. All work shall be performed in accordance with the construction documents which were submitted with and accepted as part of the application for the building permit. The building permit shall contain such a directive. The permit holder shall immediately notify the Code Enforcement Officer of any change occurring during the course of the work. The building permit shall contain such a directive. If the Code Enforcement Officer

determines that such change warrants a new or amended building permit, such change shall not be made until and unless a new or amended building permit reflecting such change is issued.

- I. Time limits. Building permits shall become invalid unless the authorized work is commenced within six months following the date of issuance. Building permits shall expire 12 months after the date of issuance. A building permit which has become invalid or which has expired pursuant to this subsection may be renewed upon application by the permit holder, payment of the applicable fee, and approval of the application by the Code Enforcement Officer.
- J. Revocation or suspension of building permits. If the Code Enforcement Officer determines that a building permit was issued in error because of incorrect, inaccurate or incomplete information, or that the work for which a building permit was issued violates the Uniform Code or the Energy Code, the Code Enforcement Officer shall revoke the building permit or suspend the building permit until such time as the permit holder demonstrates that:
 - (1) All work then completed is in compliance with all applicable provisions of the Uniform Code and the Energy Code; and
 - (2) All work then proposed to be performed shall be in compliance with all applicable provisions of the Uniform Code and the Energy Code.
- K. Fee. The fee specified in or determined in accordance with the provisions set forth in § 200-21 (Fees) of this article must be paid at the time of submission of an application for a building permit, for an amended building permit, or for renewal of a building permit.

§ 200-10. Construction inspections.

- A. Work to remain accessible and exposed. Work shall remain accessible and exposed until inspected and accepted by the Code Enforcement Officer or by an inspector authorized by the Code Enforcement Officer.  - (9) Energy Code compliance; and
 - (10) A final inspection after all work authorized by the building permit has been completed.
- C. Inspection results. After inspection, the work or a portion thereof shall be noted as satisfactory as completed, or the permit holder shall be notified as to where the work fails to comply with the Uniform Code or Energy Code. Work not in compliance with any applicable provision of the Uniform Code or Energy Code shall remain exposed until such work shall have been brought into compliance with all applicable provisions of the Uniform Code and the Energy Code, reinspected, and found satisfactory as completed.
- D. Fee. The fee specified in or determined in accordance with the provisions set forth in § 200-21 (Fees) of this article must be paid prior to or at the time of each inspection performed pursuant to this section.

§ 200-11. Stop-work orders.

- A. Authority to issue. The Code Enforcement Officer is authorized to issue stop-work orders pursuant to this section. The Code Enforcement Officer shall issue a stop-work order to halt:
- (1) Any work that is determined by the Code Enforcement Officer to be contrary to any applicable provision of the Uniform Code or Energy Code, without regard to whether such work is or is not work for which a building permit is required, and without regard to whether a building permit has or has not been issued for such work; or
 - (2) Any work that is being conducted in a dangerous or unsafe manner in the opinion of the Code Enforcement Officer, without regard to whether such work is or is not work for which a building permit is required, and without regard to whether a building permit has or has not been issued for such work; or
 - (3) Any work for which a building permit is required which is being performed without the required building permit, or under a building permit that has become invalid, has expired, or has been suspended or revoked.
- B. Content of stop-work orders. Stop-work orders shall:
- (1) Be in writing;

- C. Service of stop-work orders. The Code Enforcement Officer shall cause the stop-work order, or a copy thereof, to be served on the owner of the affected property (and, if the owner is not the permit holder, on the permit holder) personally or by registered mail/certified mail. The Code Enforcement Officer shall be permitted, but not required, to cause the stop-work order, or a copy thereof, to be served on any builder, architect, tenant, contractor, subcontractor, construction superintendent, or their agents, or any other person taking part or assisting in work affected by the stop-work order, personally or by registered mail/certified mail; provided, however, that failure to serve any person mentioned in this sentence shall not affect the efficacy of the stop-work order.
- D. Effect of stop-work order. Upon the issuance of a stop-work order, the owner of the affected property, the permit holder and any other person performing, taking part in or assisting in the work shall immediately cease all work which is the subject of the stop-work order.
- E. Remedy not exclusive. The issuance of a stop-work order shall not be the exclusive remedy available to address any event described in Subsection A of this section, and the authority to issue a stop-work order shall be in addition to, and not in substitution for or limitation of, the right and authority to pursue any other remedy or impose any other penalty under § 200-20 (Violations; penalties for offenses) of this article or under any other applicable local law or state law. Any such other remedy or penalty may be pursued at any time, whether prior to, at the time of, or after the issuance of a stop-work order.

§ 200-12. Certificates of occupancy/certificates of compliance.

- A. Certificates of occupancy/certificates of compliance required. A certificate of occupancy/certificate of compliance shall be required for any work which is the subject of a building permit and for all structures, buildings, or portions thereof which are converted from one use or occupancy classification or subclassification to another. Permission to use or occupy a building or structure, or

portion thereof, for which a building permit was previously issued shall be granted only by issuance of a certificate of occupancy/certificate of compliance.

- B. Issuance of certificates of occupancy/certificates of compliance. The Code Enforcement Officer shall issue a certificate of occupancy/certificate of compliance if the work which was the subject of the building permit was completed in accordance with all applicable provisions of the Uniform Code and Energy Code and, if applicable, that the structure, building or portion thereof that was converted from one use or occupancy classification or subclassification to another complies with all applicable provisions of the Uniform Code and Energy Code. The Code Enforcement Officer or an Inspector authorized by the Code Enforcement Officer shall inspect the building, structure or work prior to the issuance of a certificate of occupancy/certificate of compliance. In addition, where applicable, the following documents, prepared in accordance with the provisions of the Uniform Code by such person or persons as may be designated by or otherwise acceptable to the Code Enforcement Officer, at the expense of the applicant for the certificate of occupancy/certificate of compliance, shall be provided to the Code Enforcement Officer prior to the issuance of the certificate of occupancy/certificate of compliance:
- (1) A written statement of structural observations and/or a final report of special inspections; and

- D. Temporary certificate. The Code Enforcement Officer shall be permitted to issue a temporary certificate allowing the temporary occupancy of a building or structure, or a portion thereof, prior to completion of the work which is the subject of a building permit. However, in no event shall the Code Enforcement Officer issue a temporary certificate unless the Code Enforcement Officer determines (1) that the building or structure, or the portion thereof covered by the temporary certificate, may be occupied safely, (2) that any fire- and smoke-detecting or fire protection equipment which has been installed is operational, and (3) that all required means of egress from the building or structure have been provided. The Code Enforcement Officer may include in a temporary certificate such terms and conditions as he or she deems necessary or appropriate to ensure safety or to further the purposes and intent of the Uniform Code. A temporary certificate shall be effective for a period of time, not to exceed six months, which shall be determined by the Code Enforcement Officer and specified in the temporary certificate. During the specified period of effectiveness of the temporary certificate, the permit holder shall undertake to bring the building or structure into full compliance with all applicable provisions of the Uniform Code and the Energy Code.

- E. Revocation or suspension of certificates. If the Code Enforcement Officer determines that a certificate of occupancy/certificate of compliance or a temporary certificate was issued in error because of incorrect, inaccurate or incomplete information, and if the relevant deficiencies are not corrected to the satisfaction of the Code Enforcement Officer within such period of time as shall be specified by the Code Enforcement Officer, the Code Enforcement Officer shall revoke or suspend such certificate.
- F. Fee. The fee specified in or determined in accordance with the provisions set forth in § 200-21 (Fees) of this article must be paid at the time of submission of an application for a certificate of occupancy/certificate of compliance or for a temporary certificate.

§ 200-13. Notification regarding fire or explosion.

Such application shall include such information as the Code Enforcement Officer deems sufficient to permit a determination by the Code Enforcement Officer that quantities, materials, and activities conform to the requirements of the Uniform Code. If the Code Enforcement Officer determines that tests or reports are necessary to verify conformance, such tests or reports shall be performed or provided by such person or persons as may be designated by or otherwise acceptable to the Code Enforcement Officer, at the expense of the applicant.

- C. Inspections. The Code Enforcement Officer or an inspector authorized by the Code Enforcement Officer shall inspect the subject premises prior to the issuance of an operating permit.
- D. Multiple activities. In any circumstance in which more than one activity listed in Subsection A of this section is to be conducted at a location, the Code Enforcement Officer may require a separate operating permit for each such activity, or the Code Enforcement Officer may, in his or her discretion, issue a single operating permit to apply to all such activities.
- E. Duration of operating permits. Operating permits shall be issued for such period of time, not to exceed one year in the case of any operating permit issued for an area of public assembly and not to exceed three years in any other case, as shall be determined by the Code Enforcement Officer to be consistent with local conditions.
